LETTER OF APPRECIATION

In pursuit for excellence in Automation & Technology up gradation, Raymond Ltd Suit Plant located in Gauribidanur has strived continuously to recognize talent in this sector to maintain its position as a renowned player in the market. In lieu of this, the machinery in Raymond Ltd plant was upgraded to be on par with latest technological innovations & automate the machines & processes, which is the Raymond way forward to make progress.

Inoti Technologies Pvt Ltd a Bangalore based company worked on our projects that was on the offing & achieved phenomenal results which are truly exemplary. They have developed an "Integrated Step motor controller along with a program panel" for one of the most critical sewing machine – Pfaff Make 3801 machine which is used for "Pre-gathering of Sleeves & attaching Sleeve head roll". The machine which was manual is now completely automated which is on par with the new technology breed of machines available in the market. The achievement is noteworthy in the sense that this machine qualifies as a special purpose machine which is quite complex & there are only a couple of players in the world who make this type of machines. During the course of the development, their personnel have shown great passion & commitment in making the project successful. Their personnel in great detail & made substantial efforts to understand our requirements & showed keen interest in getting to the last detail possible. The results have been extremely good & the functioning of the machine & its parameters has been very satisfying. A total of 4 machines were developed & all have been performing very well.

On behalf of Raymond Ltd Suit plant, I appreciate the good work done by the personnel of Inoti Technologies Pvt Ltd & we will be more than happy to be associated with their company in projects related to Automation & Technology up gradation. On behalf of Raymond Ltd, I take this opportunity to thank Mr. Manajit Brahma & team from Inoti Technologies & wish them all the very best in their future endeavors.
